

Qatar Rail Environmental Policy

The Railway is one of the most environmentally friendly modes of transport.

Qatar Rail's Environmental Policy provides our goals and basic principles to ensure an environmentally considerate operation.

OUR GOALS

- Achieving a carbon neutral environment.
- Minimising the negative and maximising the positive impacts that our business and project activities have on the environment.
- Continual improvement based upon risk and organisational benefit.

BASIC PRINCIPLES

We will achieve our goals by undertaking the following:

- Establish a culture across Qatar Rail and our projects to promote the efficient use of energy and resources. Ensuring all Environmental Impact Assessments identify and manage our activities in an effective manner across our business and projects.
- Setting environmental objectives and targets.
- Providing adequate resources, training and the appointment of competent staff to ensure effective implementation, and continually improvement of our CMS and in turn, the environmental performance.
- Ensuring compliance with applicable environmental legislation, standards and other requirements associated within our industry and region.
- Ensuring the suitability and effectiveness of our suppliers and partners in delivering the requirements of this policy.
- Reviewing planned activities and our performance against stated objectives.

We will create a working environment characterised by a commitment to our environmental objectives, behaviours and practices, and continual improvement. In this way we can work together so that our goal of environmental protection is achieved.

This policy statement is our personal commitment and that of Qatar Rail leadership team, their teams and contractors to provide a positive Environmental culture and our goal of environmental protection in all our activities.

Abdulla Al Subaie
Managing Director & CEO
